COUNSEL'S BITTER WORDS IN FORD BRIBERY TRIAL

They Accuse Each Other of Surrounding the Jury by Ruffians and Scoundrels

The Net Result of the Day's Proceedings Was to Add Three More Names to the Five of the Panel Previously Selected.

San Francisco, Sept. 16.—Four jurors were added today to the five already sworn to try former Attorney General T. L. Ford, chief counsel for the United Railroads, for the bribery of Supervisor Loneragan, but only three were finally added to the trial panel. Ugly words were passed by opposing counsel at the afternoon session. Early Rogers, counsel for the defense, adopted a parliamentary procedure by rising to a question of personal and professional privilege.

He said: "I think it extremely indecent that as we sit here, consulting, defendant counsel in the court room, there should be allowed to sit close to us, listening with all the ears they have, and hoping for more, employees of Burns, I don't object to any legitimate detective efforts and I am sure counsel for the prosecution do not approve any other, but I appeal to their sense of fairness that it is at least not in good taste for them to have their employees seated in such close proximity to us."

Judge Lawler asked Rogers to explain himself more fully. When he had done so, Henry interposed: "You gentlemen profess to accord us with equal motives, yet in the same breath you take occasion to attribute unfair motives to us in the presence of the jury. Now, as far as seating in front of the pews is concerned, I noticed about half a dozen of the most desperate characters in California, including Dave Nagle, Boggs O'Donnell, and the Bangs Eyed Kid, three men who have reputations for killing and for being prisoners in the state penitentiary at Folsom, all sitting in the court room, in close proximity to the jury. They were here the first morning of the trial and they have been here every time since. They are supposed to be in the employ of the United Railroads. It appears to me that when counsel for the other side cast insinuations at us along this line, honors are even."

"I take exception," said Moore, of the defense, "to the remarks that we have or ever held in our employ any ruffians or any persons of improper reputation about this place."

"When I was interrupted," pursued Henry, "I was about to include in my catalogue the names of the former managing editor of the San Francisco Call, Luther Brown, the law partner in Los Angeles of Earl Rogers, and Spencer. I see particularly sitting here, Looker, who is buying himself with the defense in the case. We happen to know some things that are going on here."

"We take exceptions," said Moore, "to the statement that any particular gentleman is taking any part in the defense of this case. We take excep-

GOVERNMENT TAKES PART IN WYOMING INQUIRY

Into the Circumstances Surrounding
the Indictment of Senator Borah and
Others.

Boise, Idaho, Sept. 16.—Timothy F. Burke, United States attorney of Wyoming, has at the request of Special Assistant District Attorney M. C. Burch, been ordered by the department of justice to take charge of the grand jury inquiry into the charges made against District Attorney S. M. Burke on the affidavits of three members of the grand jury which returned indictments against Senator Borah, former Attorney General Martin, and the officers of the Barber Lumber Company in connection with certain land frauds. The charges are to the effect that Burke used illegal means to secure the indictments.

William Sweet today denied that he had repudiated the confession and said that he would give the same testimony at the Borah trial, that he gave before the grand jury. Sweet is under indictment with Borah but he turned state's evidence and was promised immunity.

ABOUT DONE H. H. ROGERS

The Oil Magnate In a Bad Way

So Testify His Relatives To Keep Him Out of Court.

Boston, Sept. 16.—That Henry Rogers is in a very weak physical condition, his face is distorted and his speech affected; that his left side is not in a normal state and that he is unable to transact any business or even to discuss ordinary affairs is the substance of the testimony given by Rogers' son-in-law, Urban K. Broughton, in the supreme court this afternoon.

H. H. Rogers Jr. testified that his father had signed but three checks and a power of attorney to open a vault, since July 22. His condition Mr. Rogers said had shown some slight improvement in the past few weeks. Broughton testified that Rogers told him to take up the business where he left it as he (Rogers) was done.

After hearing the testimony Judge Hammond denied the motion to bring H. H. Rogers into court for the purpose of showing that he is capable of testifying.

C. M. Raymond of Somerville who is suing Rogers for \$50,000,000 for certain petroleum royalties, sought to prove that Rogers was able to appear in court in spite of the objections of his counsel. Deputy Sheriff Walling of New Bedford, testified that he saw Rogers in the First National bank at New Bedford last week, talking with President Winsor and Rufus A. Soule. Later Rogers walked down street apparently in good health. President Winsor admitted that he talked with Rogers last week, but he said the latter spoke with difficulty and that his physical condition was apparently not as good as it had been earlier in the summer.

THE M. & P. BUYS GROUND

Closes Option On Tract Near Phoenix

A Site of 160 Acres for Railroad Shops for Ran- dolph Lines.

Tucson, Ariz., Sept. 16.—(Special.)—It was learned today that the Randolph lines, as represented by the M. & P. and Phoenix & Eastern, had taken an option on a tract of 160 acres adjoining the city of Phoenix. A description of the property was not secured but it was situated in railroad circles that it was west of the city.

Col. Epes Randolph when interviewed verified the closing of the option and when asked concerning the probable use of land, replied that if the sale was perfected it would probably become the site of new railroad shops. Interrogated as to when their construction would be undertaken and what effect if any it would have on the Tucson shops, or rather if it had any connection with the much talked of through line, he replied that it had not. He said the present shops in Phoenix were inadequate to the needs of the M. & P. and the P. & E. and the expansion of business expected on those lines in the future. It is the idea of the management that complete new shops should be constructed to supply these local needs, irrespective of any proposed plans for a through line, and that it is better to secure a new site where there is more room and greater facilities.

Asked about the construction of these shops Col. Randolph said that it is not likely anything will be undertaken before sometime next year except to secure the location.

A DESERTED VESSEL DRIFTING IN THE BAY

A Surmise From the Surroundings.
That Two Duck Hunters Have Been
Lost.

San Francisco, Sept. 16.—Caught in a squall which prevailed on the bay yesterday afternoon, two unknown duck hunters are believed to have

been drowned while making an effort to reach Yerba Buena Island in a 30-foot sloop, with all sails set. The sloop which is without name, was found drifting about in the tide in the path of the ferry boats. The cabin was in great disorder. A half-finished meal for two was on the table, and an empty demijohn on the seat. Hunting clothes and duck decoys were strewn about, but there was nothing to indicate the identity of the missing men.

DRASTIC MEASURES WITH THE PLAGUE

Four More Surgeons of the Marine Hospital Service Ordered to San Francisco.

San Francisco, Sept. 16.—Four surgeons of the marine hospital service have been ordered to the assistance of Dr. Rupert Blue, who has been placed by the federal authorities at the request of the mayor, in charge of the bubonic plague situation in San Francisco. They are Doctors Creel and Vogel, who landed at Seattle on Saturday from the Philippines, Dr. Rucker, detached from duty at the Jamestown exposition, and Dr. Roberts, ordered here from Washington.

Dr. Blue said tonight: "I consider the situation in San Francisco well worthy of drastic measures. I have now assumed full control and have established twelve district headquarters in the city. A physician in charge of each district will report to me daily, and hereafter, eradication measures will take the form of recommendations by me to the board of health which that organization will order carried out. Surgeons of the marine hospital service will be ordered to my assistance as I need them."

TUCSON TEAM FINDS PRESCOTT INVINCIBLE

The Mountain Players Repeat the Drubbing They Administered on Sunday.

Tucson, Ariz., Sept. 16.—(Special.)—The Prescott baseball team today defeated the Tucson team again by a score of 5 to 4. The lineup and batteries were the same as in the Sunday game. The Prescott team only secured five hits while the Tucson team accumulated ten, but the latter could not get through to the plate. The visitors made three errors against five for the home team. In the ninth inning the home team after a bad drubbing rallied and made two runs but still lacked strength enough to change the result.

Word from Cananea is that the Copper City team again administered defeat to the Globe team. The score was not verified but it is reported 6 to 1, just a little worse than the Sunday game, when Cananea was victorious by a score of 5 to 2.

RAILROADS OF KANSAS GIVEN THEIR CHOICE

Either a Two Cent Fare or a Fight Against a Reduction of Freight Rates.

Topeka, Sept. 16.—The state board of railway commissioners has prepared a tariff sheet providing for a reduction of freight rates, about 13 1/2 per cent, which it will put up to the legislature if a special session is called. Governor Hoch has practically said that he will call a special session if the roads do not grant the two cent fare rate.

This puts the question squarely up to the railroad of either granting a two cent fare without a special session or of facing a fight for freight reduction. The chairman of the railway board, G. W. Kanavel, says the board has been working for some months on new distance tariff rates so that an investigation could be quickly made.

THE TRIBESMEN YIELD TO GENERAL DRUDE

The Mission Which Took the Allied Armies to Morocco Has Been Ac- complished.

Casa Blanca, Sept. 16.—With the submission of all the tribes now practically assured, it would appear that the mission which took General Drude to Morocco has been fully accomplished. Persons acquainted with the country declare that the movement of the tribesmen is over.

They are essentially agriculturists, and in a hurry to return to the fields for the first grains. It is understood that when calm is re-established the troops now quartered at Casa Blanca will be distributed in the eight sea ports to inaugurate a police system.

**ENGINEERS THREATEN
THE GOULD SYSTEM**
A Strike Which Will Probably be Be-
gun on the Missouri Pacific.

Kansas City, Sept. 16.—The Star says today "The Brotherhood of Engineers of Kansas City assert that as a result of the vote recently taken, 97 per cent of their men in the Missouri Pacific favor a strike because the company has refused to make certain concessions involving the roundhousing of locomotives at the end of the run. It is said by the railroad engineers that the strike of the engineers of the Missouri Pacific system will also involve the engineers of all the Gould lines, including the Iron Mountain, the Denver and Rio Grande, the Wabash, the Texas Pacific, and the International and Great Northern. There are 1200 engineers employed on the Missouri Pacific and the Iron Mountain alone."

Mrs. Higgins started to cross a foot bridge with a six year old boy and her five year old daughter Alma, while she carried a six months baby in her arms. The narrow bridge stands only two feet above the swift current. The boy fell into the water and the mother, with the infant in her arms, sprang in to save him. All three were drowned. The little girl crossed safely and went to Millville to tell what had happened. The bodies were recovered. A mounted messenger has gone to Big Valley, to notify the husband and father.
